22" & 27" Models

24" Models

Key features

Flat IPS panel: Preserve color vividness and clarity of multimedia contents across every inch of the screen through 178° of wide viewing angle.

Borderless monitors: Minimal bezel brings maximum concentration. The virtually borderless screen shows a full picture and looks almost gapless when used in a dual-monitor setup.

Eco Saving Plus²: Can assist in more effective power consumption while maintaining picture quality. Eco Saving Plus technology can reduce up to 10% of power consumption when compared with the maximum brightness level by adjusting the brightness of the screen's black sections automatically.

USB Hub: Extend the connectivity of the PC by connecting it to your monitor and using its USB ports.

HDMI: HDMI can be used to transmit audio and video data from an HDMI-compliant source device, like a laptop, tablet or desktop PC, to a computer monitor.

DisplayPort (DP): DisplayPort can be used to transmit audio and video from a DisplayPort-equipped external device to a computer monitor. DisplayPort supports FreeSync.

SAMSUNG

All tests and measurements were conducted by Samsung internally.

¹Speakers only available for 24" and 27" through optional model.

²Based on internal testing data of S80PB, S80TB and T45F monitors only. Testing compared energy usage of these models with Eco Saving Plus mode switched on high setting and switched off. Actual energy savings may vary based on usage conditions, brightness levels, and model selected. Eco Saving Plus is not available in Dynamic Contrast Mode, Game Mode, Eye Saver Mode, or when PIP/PBP Mode is on.

³See www.tccertified.com for more information.

⁴See www.epeat.net for more information.

⁵All models are staple free. All recycled plastics used in our monitors are chemical spray-free.
